

“INAUGURATING THE NEW ERA OF SHIP MANUFACTURING”

2007 International Forum on Welding Technologies in the Shipping Industry

Second Call

June 16-18, 2007

Shanghai, China

Yan`an Hotel

Dear Sirs,

We are delighted to welcome you to the International Forum on Welding Technologies in the Shipping Industry (IFWT) held in conjunction with the Beijing Essen Welding and Cutting Fair in Shanghai from 16th to 19th June, 2007.

Introducing the newest research results in welding science and its related manufacturing technologies, the IFWT will be one of the largest gatherings of national as well as international welding professionals in China and will attract a great number of delegates from all segments of the shipping industry.

This high-level meeting will not only be an international platform for experts and scientists working in the fields of welding engineering and technologies in the shipping industry, but also an important networking event for the respective end-users looking for new business contacts.

The 2007 IFWT promises to be a truly international meeting in character, bringing together around 300 delegates from all over the world.

We are looking forward to seeing you at the Forum!

Sincerely,

Chinese Mechanical Engineering Society (CMES)
